Other Ingredients: Vegetable Capsule (Cellulose)

THE BRAVENLY DIFFERENCE

INGREDIENT SPOTLIGHT

SPERMIDINE

Filled with antioxidants & anti-inflammatory properties. May also support autophagy, the process by which cells recycle and repair damaged components.*

EVOTHIN™

Contains thermogenic properties which may help your body burn more calories or prevent the creation of new fat cells.*

CHROMIUM CHELATE

Guides sugar from the bloodstream into muscles (into muscle's glycogen stores) so that your body prefers to burn fat for fuel instead of muscle.*

GYMNEMA SYLVESTRE

May lower sugar cravings while reducing the rate at which sugar and fat are absorbed into the body.*

BERBERINE

May support regulating how the body uses blood sugar through AMP-activated protein kinase. AMPK plays a key role in regulating metabolism and energy levels and is found in cells throughout your body.*

WHITE KIDNEY BEAN

May lower the glycemic effect of high-glycemic foods by slowing the actions of the enzyme the body uses to break down carbohydrates and may prevent the body from turning excess sugar (glucose) into fat.*
